Instructions for poster presentation

Poster Sessions

- The accepted posters are thematically divided into eight scientific areas which have been grouped in 3 Poster sessions. The exact timing of the individual sessions is given in the conference program.
- For each accepted poster, there will be one poster easel reserved in the Palace Hotel Japiglia room for one conference day as reported into the Poster sessions program. The poster easels will be used as double-sided, i.e., two poster presenters sharing one poster easel. It will be clearly marked which poster belongs on which easel and easel side (there will be a list associating posters with easel numbers).
- The maximum usable area on your poster easel is 100 cm wide x 120 cm tall. The remaining area (at the bottom of the easel) can be optionally used for attaching handouts.
- Proper mounting items will be provided at the site.
- No additional facilities (such as electrical sockets, tables for laptops or handouts etc.) can be guaranteed to the poster presenters.
- The poster presenters are supposed to present their posters during their poster session. However, they can put up their posters already at the beginning of the daily conference program in the morning and leave them on display all the day.
- Please note that it is up to the poster presenters' responsibility that no posters will be left on the easels after the last session of the conference day they have been assigned for presentation.
- For poster presenters exposing poster on Friday, 16th April 2010, please note that the posters should be removed from the easels immediately after the end of the Friday morning session, as the easels will be carried away on Friday afternoon (15:00).
